Creating Places for People Survey

7 Which of the following benefits, created by the 'Creating Places for People' principles, are the most important to you? Please only select your top 5 options.

The air is cleaner, and streets are not as noisy, I have access to a range of shops, facilities and services in my local community that meet my everyday needs, Quality of life is improved for all through reduced stress e.g. I don't have to sit in traffic anymore and paths are accessible for everyone, Streets around me are attractive, feel welcoming and have a sense of community, I feel improvements in my mental health and wellbeing, Streets feel safer for people and cars naturally go slow i.e. reduced speeds are not forced upon me but streets are designed to meet all users' needs

Fill out the box below if you selected 'other' above. :

8 Which of the principles listed below do you think should be a priority for new developments to deliver? Please only select your top 5.

New developments are well connected via links to existing roads and local services, Creating an attractive high-quality environment e.g. trees and green spaces, Safe and easy access to schools without the car, Building and street materials consider the local context, Safe and sustainable connections between rural communities

9 How do you feel about our 'Creating Places for People' principles? (You can find the principles near the top of this page in the section marked 'further information'.)

Very Supportive

10 Do you think that there are any other 'Creating Places for People' principles that should be included?

Please fill out the box below with any other suggestions on principles that should be included within Creating Places for People that you think are missing from Q8.:

Encouraging economic vibrancy is essential.
